

Small. Handy. Efficient.

With the new **Road Taper** „on the road again“!

PREMIUM QUALITY – ECONOMICAL – SOLUTION ORIENTED

Reaching the goal with less effort: The road marking tape can be fixed very easy and the work is getting simple.

Use our new Road Taper for road markings. With this light and efficient machine you can save time and money.

Economic viability

The Road Taper is easy to handle, light and agile. Fixing marking tape is very simple with this economic and efficient machine. With a weight of only 40 kilogram the Road Taper can also reach hardly accessible areas.

Small machine – a lot of power

One pro of our Road Taper is the high performance and power. In combination with the little weight a speedy marking work is possible. The Road Taper is very useful especially for shorter distance, roadsides and corners.

Easy transportation

The Road Taper is comparably small and light so that transportation is not a problem at all. This enables also short-term operation if necessary. We deliver the Road Taper immediately after our customers inquiry.
